

Taleo Releases Business Edition Version 6.0 - June 28, 2005

Taleo Corporation, a provider of staffing management services and solutions, has unveiled Taleo Business Edition 6, the latest version of its solution designed for small and mid-sized organizations. Taleo Business Edition 6 is a completely self-service, on demand talent management solution. The service is delivered via a "software as a service" model, available on demand, so there is no traditional software to buy, install, upgrade or maintain. "Taleo has been a leader in the talent management solutions industry for large organizations during the past five years, helping our customers to improve business performance through our solutions. With the release of Taleo Business Edition, we are now addressing the talent management needs of organizations of all sizes," said Michael Gregoire, CEO of Taleo. "We look forward to delivering further value to our customers including cost reductions, increased productivity and quality of hire with the release of Taleo Business Edition 6."
