

Taleo Appoints Chief Technology Officer

Taleo Corporation, a provider of staffing management services and solutions, has named Bradford Benson as executive vice president of research and development and chief technology officer. Prior to joining Taleo, Mr. Benson was senior vice president of research and development at Lawson Software. Before joining Lawson, he served as vice president of engineering at Avolent, a provider of software for Internet billing and interactive customer care. "We are very pleased to welcome Brad to our executive team as we continue to grow and expand our operations. Brad is among the top senior executives in enterprise software development and new technologies for talent management, and brings more than 19 years of R&D, technology, engineering and global solutions development experience to Taleo from a number of leading public and private enterprise software and ERP organizations," said Louis Tetu, CEO of Taleo Corporation. "We are confident in his ability to excel in this newly defined role, where he will oversee the overall R&D, product management, technology, infrastructure, release management and internal IT operations."
