

Woodside Energy Selects Taleo

Taleo Corporation, a provider of staffing management services and solutions, has been selected by Woodside Energy for use of Taleo's Enterprise Talent Management Suite to replace its existing infrastructure for experienced hires. Woodside is Australia's largest publicly listed oil and gas exploration and production company and is one of the nation's most successful explorers, developers and producers of hydrocarbons. Paul Callander, Taleo's managing director for Asia Pacific, said that he welcomed Woodside as a client as "their decision demonstrates Taleo's ability to help globally minded companies such as Woodside take the next step in talent management confidently, knowing that they have a scalable solution that can truly offer the flexibility required by multinationals to build and manage their operations consistently around the globe."
